

# Doylestown Shade Tree Committee

Sept. 11, 2013 6:30 P.M.

Brian called the meeting to order at 6:35. Other members present were Brian, Terry, Leon, and Chris. The minutes were read and Chris made the motion to accept the minutes, Leon second and the motion carried.

Barnett Tree Company was selected for the fall tree removal and trimming. Members expressed a concern that they removed one tree on Portage Street and have not been back since. Terry said he would have Kristen call and inquire about the situation.

A tree on Summit Street was added to the list. And a small tree in the cemetery needs to be pulled out.

Davey Tree Company will be contacted to order trees for the fall planting.

Irish Silk Lilacs will be planted by Mr. First's home. 440 Meadow Ridge will need one possibly two trees. Silver Creek has a dead maple that will need replaced. The trees at the Irwin property will not be replaced because of the content of the soil.

Leon and Chris will contact some people and ask for bids on the maintenance project. This will include fertilizing, the removal of the ground around the trees and mulching.

Due to the presence of the mountain ash bore in the trees on Northwood we need to consider what type of tree would be a good replacement.

The next meeting will be Oct. 9, 2013 at 6:30. CM
