

VILLAGE OF DOYLESTOWN COMMUNITY NEWSLETTER

A Message From The Mayor.....

Welcome to the Spring edition of the Community Newsletter!

Even though the calendar tells us that Spring has arrived, the thermometer sure tells a different story! As we all anxiously await warmer weather and green grass, thoughts of summer are on our minds.

We have been busy setting up our summer **Main Street Music at the Bandstand** series, which will once again fill our Friday nights with **FREE** concerts in June and July. As an added bonus, we have added a 9th concert. The food trucks have been scheduled to return as well. The complete schedule and contribution form are on page 7. The food truck schedule will be posted on the website in the near future.

As most of you know, the Village has been hosting Goodwill Industries every 2nd Saturday of the month for over a year now. This program started after we invited Goodwill to our community to accept donations after the Village wide yard sales in September. We had such an overwhelming response to this, Goodwill decided to add the monthly program to our community. Thanks to the generosity our residents have shown, I would like you to let you know that the Village of Doylestown has been selected as Goodwill Industries' **Chair's Volunteer Award winner for 2014!** This award pays special tribute to an individual, company or organization that has demonstrated outstanding volunteer support for Goodwill during the past year. Out of the five other communities that participate in this program, the Village of Doylestown is their biggest contributor. I am proud to accept this award on behalf of our community and hope this program continues to grow with your continued support.

I hope you enjoy this issue of the Community Newsletter! Have a wonderful Spring.

Serving Since 2006

Law Enforcement has spent the better part of a decade on a mission to combat drunk driving in order to make our roadways safe. However, studies released by the Department of Transportation's National Highway Traffic Safety Administration (NHTSA) introduce "drugged driving" (and specifically marijuana use) as even more of a safety concern.

NHTSA's latest study of Alcohol and Drug use by driver's found that the number of drivers with alcohol in their system has declined by nearly one-third since 2007, and

by more than three-quarters since the first Roadside Survey in 1973. That same survey found a large increase in the number of drivers using marijuana. The survey found that nearly one in four drivers tested positive for at least one drug other than alcohol. Many of those driver's tested positive for the active ingredient in Cannabis, Tetrahydrocannabinol (THC).

Cannabis or more commonly referred to as marijuana is the most prevalent illicit drug identified by impaired drivers. The effects of cannabis on driving continue to be debated, making prosecution and legislation difficult. Alcohol detection, field sobriety testing, sample collection, and prosecution have become standardized amongst Law Enforcement across the country since the 1970's. We are just scratching the surface with cannabis and the combination of multiple drugs.

Epidemiology is the science that studies the patterns, causes, and effects of health. Epidemiologic data shows that motor vehicle crashes increase 2-fold after smoking marijuana. Driving simulator studies that measure epidemiologic effects show that drivers attempt to compensate by driving more slowly after smoking marijuana, but control deteriorates because marijuana reduces inhibition which causes increased risk taking. Cannabis smoking increases lane weaving and impaired cognitive function. The study also indicated that frequent cannabis use decreases the ability to critically track objects, reduces reaction time, and diminishes the capacity to divide attention. Simply stated, marijuana impairs your ability to judge time and distance. It can cause paranoia, disorientation and physical symptoms such as body and eyelid tremors. The descriptions of these impairments support one's inability to operate a motor vehicle. The most dangerous characteristic of Cannabis use has to do with its duration of effects. Individuals driving under the influence of alcohol and who are impaired, at or above the legal limit, feel those effects but choose to drive anyway. Cannabis typically causes impairment for 3 to 5 hours after ingested but impairment may last up to 24 hours in your system without the user being aware of the effects.

Driving under the influence of alcohol or drugs remains illegal and unsafe. The intent of this article is to raise awareness around the true danger of "drugged driving" in addition to "drunk driving"... both are high risk and very irresponsible.

From the Water Department

Water and wastewater utilities are often a community’s most expensive and valuable asset. The Village of Doylestown is no exception. We are fortunate that our water and wastewater utilities are stable, reliable and are made available to our 1,300 customers at a very reasonable cost. According to the 2013 Ohio EPA Water and Rate Survey (published in September, 2014), the average annual statewide water and sewer costs for Ohioans was \$1,170.00. The average annual cost for a Village of Doylestown customer was \$1,000.00.

Overall, our water treatment and sewer treatment facilities remain in good shape. Over the past ten years, the Village has invested in the water system by developing a new well field, constructing a new water treatment plant and extension of new water lines. These new facilities are producing and providing water to the community of a higher quality and with more reliability than ever. Some of our residents may have noticed that required maintenance was performed on the water towers last summer as the towers were cleaned and repainted.

The sewer treatment plant continues to operate and provides acceptable treatment of wastewater. Our treated wastewater is discharged to the environment in a receiving stream. Because of our treatment efforts, the plant discharge is of a higher water quality than the water in the stream.

The Village of Doylestown Board of Public Affairs (BPA) has worked very hard to meet our objective of keeping our water and sewer rates affordable for all our customers while delivering a high quality product. However, ongoing challenges such as rising operational costs, needed capital improvements and complying with EPA regulations makes it increasingly difficult to keep rates in check. We are pleased to report that no rate increases are currently planned for 2015 however, we continue to monitor our finances closely for any changes or unforeseen circumstances which may require a rate increase in the current year.

If you have any questions or comments, feel free to attend our bi-monthly BPA meetings which are held on the first and third Monday of every month at Village Hall (7pm).

Main Street Music At The Bandstand

Another great summer is fast approaching. Our 2015 Main Street Music at the Bandstand concert series has come together for another great year of fun, food and entertainment. This year we welcome back a few bands from last season and welcome in a few new ones. The summer concerts will feature music covering the 20th Century; 40's, 50's, 60's, 70's and 80's and more! A variety of food trucks will be joining us again throughout the summer. If you didn't get the opportunity to try them last year, I would highly encourage you to plan a family friendly Friday night out and enjoy one of these amazing meals. I look forward to seeing everyone coming out and enjoying the 2015 summer concerts!

Additionally, this year marks the 14th season of **Main Street Music at the Bandstand**. I would like to take this opportunity to personally thank all of our sponsors and contributors who have *generously* supported this program over the past 14 years. Without your support, we would not be able to make this summer spectacular possible. All of your contributions directly benefit Main Street Music at the Bandstand, which bring you the summer concert series. As in the past, there are several levels of contributions and sponsorship of specific performances are available.

If you have any questions, please feel free to contact Chad Marti at 330-283-8332 or cmarti@doylestown.com.
