

Village Of Doylestown W.T.P.

WE NEED YOU

Help Us Get the Lead Out

What?

To protect our customers from lead in drinking water, we are working to identify and catalog all service lines, including those in your home.

To limit cost and disruption to residents, we need your help identifying your home's service line, which connects your residence to the main water distribution pipes.

How?

Please use the QR code below or copy and paste the URL in your browser to complete the short survey, or contact us for a paper copy. This 5–10-minute survey will walk you through how to identify your home's service line.
